Here are the steps I did for programming a car key:

1. (Optional) I bought a key for my car. For you, that would be a key like this one, for \$50: <https://www.ebay.com/itm/353528657193>
2. Call the locksmith to make an appointment. He will not meet you without an appointment. EZ-Locksmith, (408) 613-6000 or (415) 975-1310.
You will let him know you need a key for a 2022 Toyota Corolla. He will ask if you already have a key. If not, probably he has to order one, and charge you extra for it. For just the cost of key programming for my car was \$120.
Once you have an appointment, he will give you a day, time and the address to go to.
