I spoke to Sein and profusely apologized for not returning her calls. I gave her a number where I can check my voicemails more easily. Here were the major points:

- \* Dad's discharge is likely to be next week.
- \* I told her B&C what we're favoring at the moment. I also told her that I value Denise's recommendations, and that therefore we favor the place in Fountain Valley that Denise is having me visit first.
- \* Doctor's visits: Some places include it in the base fee, some places do not. Depends on the specific B&C. Sein is not indicating that doctor home visits are in the cards.
- \* Therapeutic visits will be covered by KP.
- \* The LT base fee covers nearly everything. As long-term care facilities, it's just as the name describes, and they don't try to nickel and dime for diaper changes, etc.
