If you are interested I will ask my friend, Thuy Doan to release her phone number to you

Thuy Doan, my class mate in the university of public administration

She is very smart and kind hearted, a woman of dignity

She graduated master degree valedictorian and got USaid scholarship like dad but she relinquished that honor and got married.

In 1975, she started her life in USA, working as a nurse aid to help her husband to go back to school , becoming veterinarian

All i leaned about handling dentures, living with a diabetic husband, and board and care experience are from her and two other friends
