Thanks for the update.

Can we request for them to discharge Dad next Thursday or Friday?

I need to take care of critical work meetings next Wednesday in LA and can focus fully on Dad after that.

Also, just booked a flight to LB 8/10-8/17.

H.

I spoke to Sein and profusely apologized for not returning her calls. I gave her a number where I can check my voicemails more easily. Here were the major points:

- * Dad's discharge is likely to be next week.
- * I told her B&C what we're favoring at the moment. I also told her that I value Denise's recommendations, and that therefore we favor the place in Fountain Valley that Denise is having me visit first.
- * Doctor's visits: Some places include it in the base fee, some places do not. Depends on the specific B&C. Sein is not indicating that doctor home visits are in the cards.
- * Therapeutic visits will be covered by KP.
- * The LT base fee covers nearly everything. As long-term care facilities, it's just as the name describes, and they don't try to nickel and dime for diaper changes, etc.
