Actually this was just a telemarketing call. When I called back, they tried to sell some sort of medical alert device to me.

Thanks Hien. They need to get everything set up at the Board & Care for Dad's discharge on Thursday.

What do they need, authorization? Proper set up is important. Dad is essential incapacitated. He has to be transported in a gurney. He cannot sit up in wheelchair.

I'm traveling tomorrow afternoon. Maybe better if they try Huy first. Can you provide name and phone number to call back?

H.

I got a voicemail from Apria Health Care about some equipment that was ordered. I don't know anything about it. It thought that they will either call you or Huy about medical stuff.
